Ridgid Aluminium & Extension Ladder

RIDGID ladders are available in aluminium and fiberglass. Meet OSHA requirements and comply with code requirements of the American National Standard Institute. Also meets and exceeds Canadian Standards Association testing requirements.

Fiberglass Extension Ladders - Type 1A Extra Heavy Duty*

Feature 'D' rung, outside slide guides and cast aluminium run lock. Pulley and all-weather polypropylene rope are standard. Included are plated steel safety shoes, top and bottom mar-resistant end caps.

Fiberglass Step Ladders - Type 1A Extra Heavy Duty**

Pinch-resistant spreader braces and skid-resistant rubber feet provide added safety and long service life. Non-conductive solid fiberglass rails. Lightweight for easy handling. Aluminium steps and molded top cap with tool slots.

Fiberglass Double Step Ladders - Type 1A Heavy Duty*

Constructed of non-conductive fiberglass for years of service, allowing for entry from either side. Plated steel hinges extend above the top step to provide side guards when using scaffold planks. Pinch-resistant side braces. Aluminium angle feet with heavy duty corrugated rubber tread.
